Mr. Steve Belliveau
996 S. Chippendale
Bartlett, IL 60103

Dear Mr. Belliveau

On behalf of the Science Chicago team, I would like to thank you for making LabFest! a huge success. We enjoyed working with you to bring this exciting program to communities across the Chicago region.

We are so pleased that we were able to partner with you on LabFest!, one of the signature programs for the Science Chicago initiative. The public responded overwhelmingly positively to these events. In total, over the course of 15 LabFests! produced this spring and summer, we estimate approximately 20,000 students and their families enjoyed learning about science in this interactive festival. We appreciate your participation in this successful program and enjoyed working with you to bring this program into Chicago's neighborhoods, schools and parks. LabFest! would not have been possible without the dedication and hard work of all the participating partners; thank you for making this signature Science Chicago program a success.

Thank you for your ongoing commitment to bringing engaging science programming to the public!

Sincerely,

Cheryl R. Hughes
Executive Director
