

Getting Excited about Science

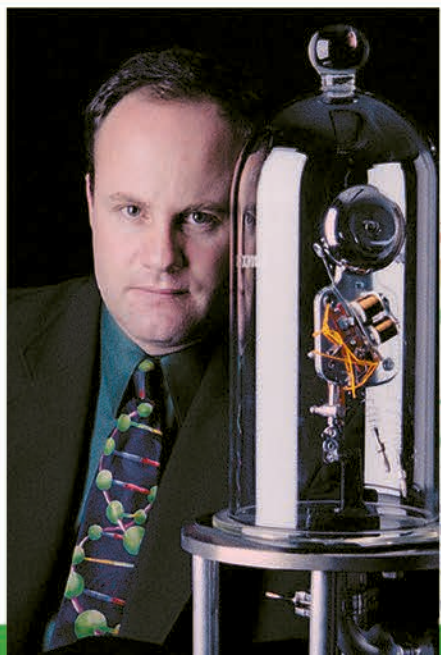

Over **300** shows a year
across **11** states makes
Getting Excited About Science
the Mid-West's most popular
and best science show.

Steve Belliveau delightfully combines his university studies (B.S. Engineering) with his skills as a magician to present a show that captivates students and teachers alike. He has been recognized by professional teaching organizations, the Chicago Tribune and WGN TV as a leader in this field.

The Science of Sound Good Vibrations

COMBINE SCIENCE AND SOUND

Lots of fun demonstrations, a few surprises and audience participation create "Good Vibrations" for teaching many sound concepts.

Give children a great vibe and insight with science

Lasers, ancient instruments, bell in vacuum, giant ear, music and fun. Perfect tie in to **Summer Reading Theme.**

Is there Sound in Space?
How do speakers work?
How do we hear?
Can rods sing?
